Subject: RE: Phase 3 Monitoring and Maintenance and Overview Oiling Survey Assessment

**Date:** Tuesday, July 07, 2015 3:41:24 PM

Hi Mike –

Regarding the Overview Oiling Survey Assessment Plan: I suggest OSPR be the primary sampler and not CTEH.

Concerning the Guidelines for Maint. And Monitoring: Just for clarification:....page 3.....should explain what a "213" is since outside stakeholders etc. may have access to this plan.

I'm OK with the remainder of this plan.

Thank you for all your time and effort !!

Mark

Hello,

Jennifer is not working on the response this week. I am EUL for the week. If you have comments on either of these plans please send them to me as soon as possible. If you will not be providing comments, please let me know.

Thanks,

Mike Comnell

Hello Everyone-

Please review Phase 3 and the Overview Oiling Survey Assessment and provide comments by tomorrow at 10 am.

Thanks Jennifer
